RAMCO WORK INSTRUCTIONS- RWI-01 of 2024

As it is very important to mention customer work order number in AIESL RAMCO Package and Air India is finding it very difficult to find their work order cross ref in our package. Although it is already mentioned in RAMCO SOP to fill Air India package/wo details in Log ref # field while creating package.

log ref # field made mandatory for package type Layover & Weekly but issue still remains as there is character limitation in Log ref # field.

In view of above, now Package description field is being made mandatory and all concerned to fill customer package/wo ref number in this field while creating package.

I want to ☒ Create ☐ Work PF for A/C Reg # VTEXA Go

Not Generated Pending Creation

Package Type PF Aircraft Reg # VTEXA Customer Name AIR INDIA

Work Center # LM-NR-DELA Log Ref. # Category LIN-INT-CHK-AFR Priority NRM

Contract # Customer Order #

Due List Quick Links

Planned Start / End Description Transit-EXA/L-220724/DEL-81140069

These details can be edited if required after package creation, using EDIT option given below :-

📄 Work Reporting Hub

I want to ☐ Create ☒ Work on Aircraft Maint. Exe. # PF1-152519-24 Go

Inclusion of standard task (Ex. TRANSIT-CHECK_A320-214) in package is mandatory as these are Fixed price tasks and fixed pricing will automatically be included in the billing. The List of standard Task is attached in ANNEX.

While creating package for Night Halt pre-flight inspection, users are required to mention incoming and outgoing flight details in package description field. This will help in presenting correct billing invoice to customer.

It has been observed that additional packages are being created in each shift and later not cancelled thereby causing lot of confusion and delay in the billing process. The concerned persons creating package in the shift are required to be more cautious and cancel additional package at the end of shift.

The above is for information and strict compliance.
